

# Madness at the Core of Time

GWAR

Madness at the core of time!  
Attack ships on fire  
Plasma beams criss-cross the sky  
Clashing carnage everywhere  
Stench of death and burning hair  
Mind-numbing midnight sorties  
Missions to the void  
The maw it rips it shifts it splits  
Our tattered legion  
Humanoid

We saw the machines!  
Rise from the ground  
We saw their weapons  
They shook the ground  
We felt the warfare  
It was a curse  
We swore resistance  
It was the worst

Madness- at the core of time  
Fate itself becomes UN-etwind  
Black hole bending- all is ending  
Madness at the core of time

Triumph- this is the moment we've been waiting for  
Power- we lasted this long and will forever more

We know what need we take and we feed  
We live in a cave, we love a good bleed  
We always return, we never regret  
We never deny, we never forget  
We never will fall we never will fail we always rejoice  
We always prevail  
We live to lock horns, so glad to be born  
That my balls got shorn  
cause the things were damn warm  
We know what need we take and we feed  
We live in a cave, we love a good bleed  
We always return, we never regret  
We never deny, we never forget

Madness at the core of time  
Fate itself becomes un-etwind  
Black hole bending- all is ending  
Madness at the core of time

We know what need we take and we feed  
We live in a cave, we love a good bleed  
We always return, we never regret  
We never deny, we never forget  
We never will fall we never will fail we always rejoice  
We always prevail  
We live to lock horns, so glad to be born  
That my balls got shorn  
cause the things were damn warm  
We know what need we take and we feed

We live in a cave, we love a good bleed  
We always return, we never regret  
We never deny, we never forget

Madness at the core of time  
Fate itself becomes un-etwind  
Black hole bending- all is ending  
Madness at the core of time!

Attack ships on fire! X8
