

## Surf of Syn

**GWAR**

Unsheathe the sword, call the death squad  
Let loose the dogs, make me your God  
Curse the name, stretch forth thy rod  
Get on your knees, make me your God

Unleash the nuns, surf to Earth  
Enslave the man, make me your God  
Suffer the plague, surf the sky  
Declare unclean, my God machine  
Number the beasts, sound the horn  
Suffer the wrath, bring me your first born
