

# Under the Christmas Lights

Gwen Stefani

Late night, gotta do the wrapping  
Running out of tape  
You know how to always get me laughing  
Why you such a babe?

How is this my life?  
Keep wondering if it's true  
I just can't believe there's someone like you

When it's cold outside put your arms around me  
And we'll count down to December 25  
I thank God I got you 'cause you're all that I need  
Under the Christmas lights  
Baby you and I  
Under the Christmas lights

Don't need mistletoe for kissing  
Get over here and play  
Let's start making some traditions  
And be my holiday

When it's cold outside put your arms around me  
And we'll count down to December 25  
I thank God I got you 'cause you're all that I need  
Under the Christmas lights  
Baby you and I  
Under the Christmas lights

How is this my life?  
Keep wondering if it's true  
I just can't believe there's someone like you

When it's cold outside put your arms around me  
And we'll count down to December 25  
I thank God I got you 'cause you're all that I need  
Under the Christmas lights  
Baby you and I  
Under the Christmas lights
