## Wind It Up

## **Gwen Stefani**

High on the hill with the lonely goatherd Layee odelayee odelay heehoo Yodel back with the girl and goatherd Layee odelayee odeloh

Wind it up! Wind it up! Wind it up! Yodelay yodelay yodeloh (Yeah)

This is the key that makes us wind up When the beat comes on the girls all line up And the boys all look but no they can't touch But the girls want to know why boys like us so much

They like the way we dance, they like the way we work They like the way the L.A.M.B. is going 'cross my shirt They like the way my pants, it compliments my shape (She's crazy, right?) They like the way we react every time we hear the

Every time the bass bang realize it calls your name Let the beat wind you up and don't stop till your time is up Get in line now

Wind it up! Wind it up! (Come on) Wind it up! Yodelay yodelay yodeloh

You got to let the beat get under your skin You got to open up and let it all in But see, once it gets in, the popping begins Then you'll find out why all the boys stare

See? They're trying to bite our style, trying to study our approach They like the way we do it, so original I guess that they are slow, so they should leave the room This beat is for the clubs and cars that go

Every time the bass bang realize it calls your name Let the beat wind you up and don't stop till your time is up Get in line now

Wind it up! (Whenever you're ready) Wind it up! Wind it up! Wind it up! Yodelay yodelay yodeloh

Uh huh, this is your moment Uh huh, come on girl, you know you own it Uh huh, you know your key is still tick tockin' Hell yeah, but you know they're watchin' Get it girl, get it, get it girl Get it girl, get it, get it girl To the front, to the side To the back but don't let him ride

Keep goin' girl, it's your night Don't let him steal your light I know he thinks you're fine and stuff But does he know how to wind you up? (Come on)

Wind it up! Wind it up! Wind it up! Wind it up! Yodelay yodelay yodelay, hey
