

## Make Out Club

## Gym Class Heroes

If I recall correctly  
It was the middle of spring  
Walkin with my boys  
Contemplating what summer will bring  
We started talking about girls  
And it was the funniest thing  
As I started to remember some of my funniest flings

See there was Ashley,  
She caught my eye the second that she passed me  
I kissed her once  
Then she started to harass me  
She called all night long  
I had to buy a brand new phone

And let me see  
There was Melanie  
To have a mouth like that should be a felony  
Wouldn't believe half the shit that she was telling me  
I mean dirty vocab  
She used to talk like she was crunk

And after that was Tiffany  
The one with the cute cousin  
Are you kiddin' me?  
She had a man  
But that didn't mean shit to me  
He tried to catch us all the time  
But I was just to goddamn smooth

And I can't forget to mention Carrie  
But that situation quickly got scary  
Cuz after 2 days she was like lets get married  
Can you believe that shit?  
I had to pack my bags and move!

They say I gotta change my evil ways  
And I'm working hard at it every day but  
No matter what i do  
I seem to make the same mistakes that I'm trying not to  
If love is just a game that people play  
And practice make perfect is what they say but  
No matter what I do  
I seem to make the same mistakes that I'm trying not to

I'll always remember Monica  
The Jewish chick  
She'd always give me gifts for Chanukkah  
To meet her folks she tried to make me rock a Yhomica  
But she looked so damn good  
She almost made my ass convert

And after that there was Lisa  
She had a twin sister, Teresa  
I bumped into them at Cam's getting pizza  
The greatest night of my life  
Schlep's "The Rock that Killed Two Birds"

And there was Erica  
She had the stankest breath in North America,  
I tried to slip her tic tac's  
But they were scared of her  
And when we made out  
I always had to plug my nose

And I suppose you know your sister  
Shoot, I swear by hand and God  
I only kissed her  
I gotta foot fetish  
But she gotta lotta blisters  
I mean hammer time feet  
You'd think she had dead bugs for toes

They say I gotta change my evil ways  
And I'm working hard at it every day but  
No matter what I do  
I seem to make the same mistakes that I'm trying not to  
If love is just a game that people play  
And practice make perfect is what they say but  
No matter what I do  
I seem to make the same mistakes that I'm trying not to

Yo Matt,  
Remember Catherine?  
She talked so much  
I used to make her bring me aspirin  
Bla, bla bla bla  
I'm doing fine thanks for asking  
I even tried to make a muzzle  
But her mouth just would not quit

Oh Shit  
Remember Shauna?  
I hate to bring her up again  
I didn't wanna  
That girl I talked about  
In that "Girl's A Dog" song  
Yeah, the poster girl for Paxil  
Almost made me lose my grip

And oh shit  
There was Krystal  
The meth head  
She used to sniff like a fist full  
One time she chased me down the street with a pistol  
She tried to say I took her stash  
She bugged out and tried to kill my ass

And at last we got Kimmy  
She went abroad  
Came back  
And broke up with me  
And so I ripped up all the letters that she sent me  
I cried for like 3 days  
Then it was back to my evil ways

They say I gotta change my evil ways  
And I'm working hard at it every day but  
No matter what I do  
I seem to make the same mistakes that I'm trying not to

If love is just a game that people play  
And practice make perfect is what they say but  
No matter what I do  
I seem to make the same mistakes that I'm trying not to
