### Gym Class Heroes

I'm a lover not a fighter but every night you decide to start some shit  
I'm sick and tired of being so sick and tired  
Comin' home from tour you yelling before I get through the door  
With that so and so said this and that  
Why you still with me for?  
Goin' through my phone I made you feel like a fool  
Screaming, "Who the fuck is Alex"?  
When Alexander's my dude  
Sometimes I think you do it simply cause you're bored  
If you really loved me we'd be making love not war  
But you'd rather waste the little time we do have  
Going back and forth  
Are you sorry now? Well too bad!  
I can't believe I wasted all this fucking time  
Instead of fighting with you I could have been writing rhymes or...  
Hanging out with Stitch and watchin' "Up" or something

You never tried to meet me halfway  
You played these little immature ass ga-ay-aymes  
I tried to be the best man I can but you were too dumb to understand  
That I can have any girl but I stayed with you  
I guess everybody plays the foo-ooh-ool and  
Now you think you're coming back to me  
But that's something that I just don't see

I thought this was forever the thought of leaving you never  
But you gotta kick rocks cause your screaming's leaving my head hurt  
Before you go there's something that you should know  
I'm taking everything I bought and you better leave me my red shirt  
Don't even think of twisting this to make it my fault  
Or try to tell me you forgot to take your Midol  
Cause you ain't blaming this one on your period  
And you can save the song and dance cause I'm gone, period!  
Huh? What? Wait? Nope I'm not hearing it  
The crash dummy final grabbed the wheel and now he's steering it  
Oh, dear God... what a disaster  
And I probably shoulda done something faster  
Wait, you know what? You can kiss my ass  
You've been dropped from the label and I'm keepin' your masters  
"Travie you're a bastard!"  
Call me what you want to  
Whatever makes you feel better, I don't want you  
P.S. I froze all your accounts and uh... leave that ring on the counter
