

Oh My God

Gym Class Heroes

Vision lies the 3rd dimension
Now pay close attention
Keep you fist clenchin
as I begin my assention
feel the tension
of this name you never mention
if you do ill have they're ass sitten in detention
in the school of hard knocks
I block shots and take props
Im like new york city at 12 oclock when the apple drop
at 12 oclock when the apple drop

Oh My God (5x)

Check the illmatic
evil flows kinder a static
crazy ill finatic, sick physco simatic
like an addict
only accideted to them fat beats
you better take a seat
before the lyrics and the music be too late
you better cordinate you feet
before I blast that ass
you'll be outkastin like a black sheep
dont believe me what will it take for you to see me
or get this shit stright til we be busting out your tv
like VR bout to smoke you, like a cigar
wont be satisfied until you recognize who we are
im so crazy like martin, farting fire like cartin
be witness to these lyrical riots that I be startin
if your real, we friends to the end like chuckie
and if not, youll live if your lucky
and if not, youll live if your lucky

Oh My God (4x)

Yo yo
that red means stop (stop)
but that green means go (go)
Streth my mind catch a rhyme like steve percipio
but I dont skate I just been known to rip a mic
until I get pissed off
and just might throw this mic at you
you cant escape it just like death when it comes
I can see it, you catch a kick like them yamaha drums
and thats the bricks, as I lounge like a fat rat
you bust back and might catch a cat, rat-a-tat-tat
the one and only always real, never phoney
look to the sky, the world is mine like tony
aint no scars on my face, and I dont sniff coke
I aint got my own place, and my pockets is broke

Im reppin self, to hell wit anyone else (3x)
im reppin self

So just hold ya head, and say Oh My God
Hold ya head, and say Oh My God

Grab a hold of your dread and say Oh My God
Oh My God, Oh My God
(2x)

Is this real?
