

## Solo Discotheque (Whiskey Bitness)

Gym Class Heroes

The minute I close my eyes that's when she appears  
I grab her by the thighs and I pull her near  
But to my surprise she's just what I feel  
Cause when I turn on the lights there's no one there

I'm by myself and I'm dancing all alone  
I'm by myself and I know that nobody's solo  
I'm by myself, but I'm dancing all alone  
I'm by myself

There's no one there (When I turn on the lights)  
There's no one there (When I turn on the lights)

And just like that, she's right back  
She'll stay the night as long as I play the right track  
She likes the lights low, and when she whines slow  
I'm buyin' what she's selling, ain't no telling where my mind goes  
She leaves my mind blown, like old speakers  
She always comes and goes but I never leave her  
She's like my favorite cut or replay  
She makes the paper cuts go away  
I hope she stays

I'm by myself and I'm dancing all alone  
I'm by myself and I know that nobody's solo  
I'm by myself, but I'm dancing all alone  
I'm by myself
