## **Fire Away**

## Gyroscope

So fire away.. just fire away .. so anyway, so fire away. How deep can i just cut away? until i hit something of importan ce?.. would you feel it anyway? What doesn't kill me leaves me cold enough to shape and shave a way this frozen heart.. would i need it anyway? If only you were me and i was someone who could relay this back to us. So fire away.. just fire away .. so anyway, so fire away. Just fire away.
