

Anything (But Gone)

H-Blockx

Since you've been gone I'm trying to move on
On and on this winding road that I am on

Another day, I can hardly stay
Suddenly, I feel so extraordinary!
Out of breath Nonetheless

Refrain I'd do anything you want
If you're anything but gone
Meet me in this open space
Where I have to get along
Anything you want
If you're anything but gone
Wondering what it feels to be
Number one

Since you've been gone I've been singing this song
On and on waiting for the day you're coming home

I hear you say We can't change lanes
I've been in our way
Let's turn the page of yesterday and

Leave this place Hear me say

Refrain I'd do anything you want
If you're anything but gone
Meet me in this open space
Where I have to get along
Anything you want
If you're anything but gone
Wondering what it feels to be
Number one

Anything that you want me to be anything you want

Out of breath Nonetheless

Refrain I'd do anything you want
If you're anything but gone
Meet me in this open space
Where I have to get along
Anything you want
If you're anything but gone
Wondering what it feels to be
Number one

I'd do anything you want
If you're anything but gone
Meet me in this open space
We got to get along
