

## Bring It On

H-Blockx

VERSE I must confess I You're making me feel high When I am away I can hardly remember a word I wanted to say

I must progress - Why is the common denominator another hazard of life I catch my breath - I Am feeling so high, I'm feeling so, I'm feeling so high

BRIDGE And I might be checking out the breaking news of yesterday I'd like to send a tender message to the party And I might be checking out the breaking news tomorrow though Wake up wake up wake up

CHORUS Bring it on - like you used to say Bring it on - you and I been different from the first date Bring it on - can't wait it Bring it on - calculated too sedated love

VERSE She struck my mind but Didn't like my - haircut That open door - shut I cannot believe she didn't like me for me

I'm fucked by my life And the common denominator is another hazard of life I'm out of my mind I'm feeling so high, I'm feeling so high, I'm feeling so high

BRIDGE CHORUS
