## **Come Along With You**

## **H-Blockx**

No need for explanations It's just a crossroads We'll write a q uick note

No final destination Put on your thick coat And read what I wro te

A love letter of intention For a trip to a love convention I kn ow we got it all to push on through As far as I'm concerned I j ust can't get enough of you

And if it's tough for you I'll come along with you

Refrain: I'll come along with you Any kind of avenue I'll come along with you We'll get along

I'll come along with you Down the path that you might chose I C ome along with you We'll get along

No need for hesitating Let's steal some time like I stole these lines I

Believe in Anthony's craving For better times I Hope he don't m ind  $\rm I$ 

Resurrection of the urge To kill the days that had hurt I know we got it all to push on through As far as I'm concerned I just can't get enough of you

And if it's tough for you I'll come along with you

Refrain: I'll come along with you Any kind of avenue I'll come along with you We'll get along

I'll come along with you Down the path that you might chose I C ome along with you We'll get along, too...
