I've heard it all before The medicine don't help no more I'm to
ld between the lines

No complaints no misery I've sold social security And this is w
hy I'm not surprised I'm not surprised

I can't deny

Refrain I've seen it all before it's intuition - Don't ask me h
ow I know but somehow - I've seen it all before it's intuition
Intuition

My patience's growing sore Your sellout life's a social whore S
elling friendship for a dime

I can't complain sustain the pain For twenty years nothing has
really changed And I'm the one to walk this line just one more
time

I can't deny

Refrain I've seen it all before it's intuition - Don't ask me h
ow I know but somehow - I've seen it all before it's intuition
Intuition

Pictures with no frames they're leaving my mind

Refrain I've seen it all before it's intuition - Don't ask me h
ow I know but somehow - I've seen it all before it's intuition
