

## Intuition

H-Blockx

I've heard it all before The medicine don't help no more I'm to  
ld between the lines

No complaints no misery I've sold social security And this is w  
hy I'm not surprised I'm not surprised

I can't deny

Refrain I've seen it all before it's intuition - Don't ask me h  
ow I know but somehow - I've seen it all before it's intuition  
Intuition

My patience's growing sore Your sellout life's a social whore S  
elling friendship for a dime

I can't complain sustain the pain For twenty years nothing has  
really changed And I'm the one to walk this line just one more  
time

I can't deny

Refrain I've seen it all before it's intuition - Don't ask me h  
ow I know but somehow - I've seen it all before it's intuition  
Intuition

Pictures with no frames they're leaving my mind

Refrain I've seen it all before it's intuition - Don't ask me h  
ow I know but somehow - I've seen it all before it's intuition  
Intuition

I've seen it all before Intuition - Don't ask me how I know but  
somehow - I've seen it all before it's intuition Intuition Int
