## Intuition

## H-Blockx

I've heard it all before The medicine don't help no more I'm to ld between the lines

No complaints no misery I´ve sold social security And this is w hy I´m not surprised I´m not surprised

I can't deny

Refrain I've seen it all before it's intuition - Don't ask me h ow I know but somehow - I've seen it all before it's intuition Intuition

My patience's growing sore Your sellout life's a social whore S elling friendship for a dime

I can't complain sustain the pain For twenty years nothing has really changed  $\mbox{And }\mbox{I'm}$  the one to walk this line just one more time

I can't deny

Refrain I've seen it all before it's intuition - Don't ask me h ow I know but somehow - I've seen it all before it's intuition Intuition

Pictures with no frames they're leaving my mind

Refrain I've seen it all before it's intuition - Don't ask me h ow I know but somehow - I've seen it all before it's intuition Intuition

I've seen it all before Intuition - Don't ask me how I know but somehow - I've seen it all before it's intuition Intuition Intuition
