

Push Me

H-Blockx

Ever since the world's been turning It turned away from me I've
been pushed across the planet To find my destiny

I've been running away from something That's deep inside myself
I've been running till that someday When I reached the border'
s edge

Refrain: Push me I'm living on the edge Push me I'm sick of liv
ing like that Push me living on the edge The weak play the stro
ng out of fear of what's wrong yeah

Push me I'm living on the edge Push me I'm sick of living like
that Push me living on the edge I'm sick to death and learned t
he lesson

I'm still running yet I don't got Ground beneath my feet - some
thing is tracking me something is wrecking me I'm still running
and I don't have Time to fall into deep

Refrain: Push me I'm living on the edge Push me I'm sick of liv
ing like this Push me living on the edge I'm sick to death and
learned the lesson

Push me I'm living on the edge Push me I'm sick of living like
that Push me living on the edge I'm sick to death and learned t
he lesson

Push me I'm living on the edge Push me I'm sick of living like
this Push me living on the edge The weak play the strong out of
fear of what's wrong yeah

Push me I'm living on the edge Push me I'm sick of living like
that Push me living on the edge I'm sick to death and learned t
he lesson
