

# Push Me

H-Blockx

Ever since the world's been turning It turned away from me I've  
been pushed across the planet To find my destiny

I've been running away from something That's deep inside myself  
I've been running till that someday When I reached the border'  
s edge

Refrain: Push me I'm living on the edge Push me I'm sick of liv  
ing like that Push me living on the edge The weak play the stro  
ng out of fear of what's wrong yeah

Push me I'm living on the edge Push me I'm sick of living like  
that Push me living on the edge I'm sick to death and learned t  
he lesson

I'm still running yet I don't got Ground beneath my feet - some  
thing is tracking me something is wrecking me I'm still running  
and I don't have Time to fall into deep

Refrain: Push me I'm living on the edge Push me I'm sick of liv  
ing like this Push me living on the edge I'm sick to death and  
learned the lesson

Push me I'm living on the edge Push me I'm sick of living like  
that Push me living on the edge I'm sick to death and learned t  
he lesson

Push me I'm living on the edge Push me I'm sick of living like  
this Push me living on the edge The weak play the strong out of  
fear of what's wrong yeah

Push me I'm living on the edge Push me I'm sick of living like  
that Push me living on the edge I'm sick to death and learned t  
he lesson
