

Take Me Home

H-Blockx

Looking for them streetcaf%E9s
looking for that face, a night after a day
a day I made love to empty dreams
and nothings like what it seems
nothings like what it seems to be nomore

freedoms kissed by loneliness
somebody take away that emptiness
I layed on myself and...

take me home tonight
take me on my own
take me all alone
just come and take me home
take me home tonight
take me on my own
take me all alone
just come and take me...
home

Ive seen so many faces I
Ive seen so many nights
nights without a trace
so Im sitting in that streetcaf%E9
havent found that face
the face that makes me say

freedoms kissed by sweet caress
nobody took away that emptiness
that I layed on myself so...

take me home tonight
take me on my own
take me all alone
just come and take me home
take me home tonight
take me on my own
take me all alone
just come and take me...
home

theres so much I felt but I cant explain
the urge of love remains, but all these easy faces change
still so much I feel but still I cant explain
am I the one to blame
I cant hold a face without a name nomore
its up to me to... take me home tonight

take me home tonight
take me on my own
take me all alone
just come and take me home

just come and take me home
just come and take me home
take me all alone
just come and take me home

just come and take me home
