

# Take Me Home

H-Blockx

Looking for them streetcaf%E9s  
looking for that face, a night after a day  
a day I made love to empty dreams  
and nothings like what it seems  
nothings like what it seems to be nomore

freedoms kissed by loneliness  
somebody take away that emptiness  
I layed on myself and...

take me home tonight  
take me on my own  
take me all alone  
just come and take me home  
take me home tonight  
take me on my own  
take me all alone  
just come and take me...  
home

Ive seen so many faces I  
Ive seen so many nights  
nights without a trace  
so Im sitting in that streetcaf%E9  
havent found that face  
the face that makes me say

freedoms kissed by sweet caress  
nobody took away that emptiness  
that I layed on myself so...

take me home tonight  
take me on my own  
take me all alone  
just come and take me home  
take me home tonight  
take me on my own  
take me all alone  
just come and take me...  
home

theres so much I felt but I cant explain  
the urge of love remains, but all these easy faces change  
still so much I feel but still I cant explain  
am I the one to blame  
I cant hold a face without a name nomore  
its up to me to... take me home tonight

take me home tonight  
take me on my own  
take me all alone  
just come and take me home

just come and take me home  
just come and take me home  
take me all alone  
just come and take me home

just come and take me home
