

Time to Fight

H-Blockx

My name is MC-H on an H-Blockx mission
We're playing a song about nuclear fission
An instrument of war and a source of energy
People do not see that it's our enemy
The people in Iran and Mr. Bush and the states
Is what Saddam in Iraq just hates
So stand up everybody
Come stand up for your rights
I'm telling you the truth it's time to fight
Chorus:
T-I-M-E T-O (time to)
F-I-G-H-T (fight)
TIME TO FIGHT
The nuky weapon in the hand of the wrong dude
Can cause the people in the world a bitter pain
Tshernobyl and Harrisbug is what people have seen
Sadly only broadcast on the TV-screen
Because if all mankind knew what this was all about
They would gather all together to cry and shout
So stand up everybody
Come stand up for your rights
I'm telling you the truth it's time to fight
Chorus
It has got to be the duty of all men
To protect us from desatsters as good as they can
This is to all political leaders all over the world
To make us that nature isn't hurt
I know we need that shit to keep us warm
But the fact that this risk can do us harm
Makes me think that it's time to pray
To let God find us anotherway
Chorus
