

Where's The Message

H-Blockx

Yeah, I think I'm looking for something In fact I'm looking for
just one thing Like in a bar where I'm lost and Can't find the
exit, don't understand I've been tracking dead ends Too many w
ords but lack of content Now try to understand and Don't interp
ret what you can't One too many glasses on my way Here's anothe
r bottom of this

Empty bottle, where is the message? I used to have it somewhere
and lost it Back in the cage, man with the moustache Held anot
her friend of mine hostage Too much sedated Too much I hate it
Back in the cage, man with the moustache Empty bottle, where is
the message?

Well I read the instructions of understanding Of what the man w
ith the moustache is saying Another sip of the wisdom fizz And
I get back where the flat line is My senses neutralized, my inn
er self disguised I let my visions fly like on drive by I'm sti
ll alive, I stop telling lies, I Spill the bottle likewise and
One more broken glass is on my way Spill the sip and smash all
the glasses

Empty bottle, where is the message? I used to have it somewhere
and lost it Back in the cage, man with the moustache Held anot
her friend of mine hostage Too much sedated Too much I hate it
Back in the cage, man with the moustache Empty bottle, where is
the message?

All my senses neutralized I let my visions fly Giving it up, I'
m gonna give it up I'm giving it up for life

Empty bottle, where is the message? I used to have it somewhere
and lost it Back in the cage, man with the moustache Held anot
her friend of mine hostage Too much sedated Too much I hate it
Back in the cage, man with the moustache Empty bottle, where is
the message? Where is the message? Where is the message? Empty
bottle, where is the message?
