

## Where's The Message

H-Blockx

Yeah, I think I'm looking for something In fact I'm looking for just one thing Like in a bar where I'm lost and Can't find the exit, don't understand I've been tracking dead ends Too many words but lack of content Now try to understand and Don't interpret what you can't One too many glasses on my way Here's another bottom of this

Empty bottle, where is the message? I used to have it somewhere and lost it Back in the cage, man with the moustache Held another friend of mine hostage Too much sedated Too much I hate it Back in the cage, man with the moustache Empty bottle, where is the message?

Well I read the instructions of understanding Of what the man with the moustache is saying Another sip of the wisdom fizz And I get back where the flat line is My senses neutralized, my inner self disguised I let my visions fly like on drive by I'm still alive, I stop telling lies, I Spill the bottle likewise and One more broken glass is on my way Spill the sip and smash all the glasses

Empty bottle, where is the message? I used to have it somewhere and lost it Back in the cage, man with the moustache Held another friend of mine hostage Too much sedated Too much I hate it Back in the cage, man with the moustache Empty bottle, where is the message?

All my senses neutralized I let my visions fly Giving it up, I'm gonna give it up I'm giving it up for life

Empty bottle, where is the message? I used to have it somewhere and lost it Back in the cage, man with the moustache Held another friend of mine hostage Too much sedated Too much I hate it Back in the cage, man with the moustache Empty bottle, where is the message? Where is the message? Where is the message? Empty bottle, where is the message?
