Where's The Message

H-Blockx

Yeah, I think I'm looking for something In fact I'm looking for just one thing Like in a bar where I'm lost and Can't find the exit, don't understand I've been tracking dead ends Too many w ords but lack of content Now try to understand and Don't interp ret what you can't One too many glasses on my way Here's anothe r bottom of this

Empty bottle, where is the message? I used to have it somewhere and lost it Back in the cage, man with the moustache Held anot her friend of mine hostage Too much sedated Too much I hate it Back in the cage, man with the moustache Empty bottle, where is the message?

Well I read the instructions of understanding Of what the man w ith the moustache is saying Another sip of the wisdom fizz And I get back where the flat line is My senses neutralized, my inn er self disguised I let my visions fly like on drive by I'm sti ll alive, I stop telling lies, I Spill the bottle likewise and One more broken glass is on my way Spill the sip and smash all the glasses

Empty bottle, where is the message? I used to have it somewhere and lost it Back in the cage, man with the moustache Held anot her friend of mine hostage Too much sedated Too much I hate it Back in the cage, man with the moustache Empty bottle, where is the message?

All my senses neutralized I let my visions fly Giving it up, I' m gonna give it up I'm giving it up for life

Empty bottle, where is the message? I used to have it somewhere and lost it Back in the cage, man with the moustache Held anot her friend of mine hostage Too much sedated Too much I hate it Back in the cage, man with the moustache Empty bottle, where is the message? Where is the message? Where is the message? Empty bottle, where is the message?
