

# Centre Of My Heart

H & Claire

Often wondered about love  
Was it meant for me?  
aha I used to lose myself in dreams  
I pictured in my head  
How it all should be

But I was wrong, I was so naiive  
Love's so much better than fantasy

It's like a waterfall  
So strong you lose control  
Wehn love has reached the centre of your heart  
Nothing's impossible I want the world to know  
That love has reached the centre of my heart  
Of my heart I can't believe it feels so good  
To have you in my life I don't have to find the words to say  
How much you mean to me  
Cause you already know

2 I was so alone, I was half alive  
But you made me whole, now I realize

I always thought I had to find it  
Not that it would come to me  
Love hits you when you least expect it  
Cause the mystery is undefined  
A twist of fate and now your mine
