

## If I Could Say The Words

H & Claire

I wish that you were in my arms tonight  
And I could tell you the secret  
I've been keeping inside  
I know my words could steal your heart  
If I could say them right  
I can't pretend I'm not afraid  
As I'm picturing us face to face

You can wish on a star  
Close your eyes  
And wherever you are  
I'll be there for you  
Until it comes true  
But if your dreams fall a part  
I'll still be the light in your darkest hour  
I'd find a way  
If I could say the words

I've been holding back so long  
Rehearsing the lines  
I played out this scene a dozen times  
Now my heart is in your hands  
Can't you understand  
That I know exactly what to say  
When it's you and I face to face

And how many nights  
Can I dream that I've said  
All these words  
Then to wake to find  
It was all in my head  
That I know exactly what to say  
When it's you and I face to face

Say the words
