

# Nothing At All

H & Claire

Every road I take there  
It leads me back to you  
And they'll be no turnin' back now  
I feel it comin' through  
And I can't keep holdin' on  
Cos I'm not that strong  
(And) you're burnin' in my soul  
The closer I get  
I can't let you go

Out of nothin' at all  
I can't face this world alone  
And baby I'd die to make you know  
I'd do anything for love  
Out of nothin' at all  
Baby I feel it all again  
I'm fallin' deeper within  
To the light after the fall  
Out of nothin' at all

Tell me where will dreams go  
Through the eyes of a fool yeah  
Now I'm runnin to your ocean  
Baby let me drown in you  
I remember how good it feels  
When the love is real  
Every time you call my name  
Somehow I know  
We'll find a way

Out of nothin' at all  
I can't face this world alone  
And baby I'd die to make you know  
I'd do anything for love  
Out of nothin' at all  
Baby I feel it all again  
I'm fallin' deeper within  
To the light after the fall

And there with one touch  
The world I knew came fallin' down  
And I'd give up forever  
For just one night  
Love could show us why  
We can never let it die

Out of nothin' at all  
I can't face this world alone  
And baby I'd die to make you know  
I'd do anything for love  
Out of nothin' at all  
Baby I feel it all again  
I'm fallin' deeper within  
To the light after the fall

Out of nothing at all
