

# Over You

H & Claire

Nobody ever told me  
Love could hurt this way  
And I'd be feelin'  
How I feel tonight  
I try to hide it  
But my eyes reflect the pain  
No happy endings here for you and I  
Cos now you're saying  
It's over and done  
There's nothing I can do

When it comes down to letting go  
Won't you let me know  
How to heal my heart  
When it's hurting so  
It's not easy to walk away  
No matter what you say  
Tell me what I should do  
How to get over you  
Over You  
Sometimes I wish that I could  
See inside your heart  
When did you decide to turn the page  
You kept your distance  
Did you keep me in the dark  
Tell me how long have you felt this way  
We'll be saying it's over and done  
There's nothing I can do  
Oh no

Look into my eyes  
Tell me no more lies  
When love breaks down  
That's the least you can do  
Then I put aside  
My wounded pride  
Somehow I'll get over you
