

# Together

H & Claire

As one  
Looking back  
Now all I see  
Are nights apart feeling incomplete

Day by day  
So deep inside  
Through the dark  
Cos I can see a light

When dreams are fading  
When all hope is gone  
Whenever you need me  
I'll help you be strong

Together  
We have no other chance  
To make thing better  
We have the power to change  
Now all the wrong we've done  
Don't fear we've just begun  
Now we're together as one

So here we are  
Standing tall  
We can make it big and have it all  
Trust in me  
Like I trust in you  
We've found the answer  
We've found the truth  
To what we believe in and where we belong

We're here for each other  
United as one

Together  
We have no other chance  
To make thing better  
We have the power to change  
Now all the wrong we've done  
Don't fear we've just begun  
Now we're together as one

The future is clear when i look in your eyes

Now nothings between us  
Let's reach for the sky

Together  
We have no other chance  
To make thing better  
We have the power to change  
Now all the wrong we've done  
Don't fear we've just begun  
Now we're together as one

Together

We have no other chance  
To make thing better  
We have the power to change  
Now all the wrong we've done  
Don't fear we've just begun  
Now we're together as one  
Now we're together as one
