

## Too Close To Tears

H & Claire

Used to be we had so much to say  
Always thought that love would last and time would slip away  
But now I'm only dreaming of those endless summer days  
And how they fade to grey  
Wish It was yesterday

One day we're gonna laugh about it  
Maybe they'll write a song about it  
But (now) I'm too close to tears  
Too hurt to talk anymore  
One day you're gonna meet me somewhere  
We'll look back without a care  
But now I'm too close to tears  
It's too bad we lost  
I don't wanna talk about us anymore

It's funny how a day can change your life  
You wake up and realize there's nothing left inside  
Nobody want's to say the words, it's easier to hide  
There's something you should know  
It's harder to let you go

One day we're gonna laugh about it  
Maybe they'll write a song about it  
But (now) I'm too close to tears  
Too hurt to talk anymore  
One day you're gonna meet me somewhere  
We'll look back without a care  
But now I'm too close to tears  
It's too bad we lost  
I don't wanna talk about us  
I don't wanna talk about us

Now it's too late we've gone too far  
We've lost that dream along the way  
Now there's no time for happy endings

One day we're gonna laugh about it  
Maybe they'll write a song about it  
But (now) I'm too close to tears  
Too hurt to talk anymore  
One day you're gonna meet me somewhere  
We'll look back without a care  
But now I'm too close to tears  
It's too bad we lost  
I don't wanna talk about us anymore
