

Darky

(həd) p.e.

Give it up smooth
Stick then I move
Tryin' to make sense outta nonsense
Fool

Trippin' on life and my situation
Brothers of earth
One love and one nation

I hear the voices callin' me
The choices I made were mine
And I don't mind
I rise to the top like cream
Like the phoenix from the blunt ash
Realizin' my dreams

Kissin' the pacific sky
The purple haze brain remain open
To changin' tides
I desire knowledge by nature
Word to Aristotle
My nature's not to hate ya

So I try to put myself in the chucks of the other man
Peace to my brother
Search out my pace in this
World I discover man
Damn, check out the colors man

My eyes are open man
My eyes are opening wide
My eyes are open

I see it everyday
But some things never change - no
Some people livin' in fear
Not knowin' about the ten dimensions
The (hed) nigga reach the point of awakening
I annihilate nigga who be thinkin' that they can break me

The next brother can do what they want to
This brother's sights are wide and true
If a stupid punk sweat me
The trick ass bitch'll wish
He never met me

So be warned my scorn is what you saw there
Be down or be gone
Let's get it on there

Turn of the century
Age of the microwave
One foot on the moon
But, you can see it gettin' better
Believe it
Young people sayin'"they ain't havin' it"

So? they takin'
They breakin's
They tired of the status quo
Fittin' to rape yo'

Their eyes are open
The windows are wide and far

So what the fuck
Where you goin'
Where you been
Where you at

If I drop the bomb
Pick it up

That sexy little girl
She had no father figure
The Catholic skirt
Put a hurtin' on the father's *?*\$*#

Table dances - they don't cum cheap
Dee-eye-see-kaye
Spells relief
Bring all your daughter to me

I was a just kid
I was just living
It never occurred to me that
Skin could determine identity
I was naive you see

Don't givafuk
Never did never will

My eyes are open wide
Pack skillz then move in for the kill
