

Killing Time

(həd) p.e.

Baby, I'm a survivor
Baby, I'm on fire
Baby, I'm about to creep up inside ya
Getting high all day, drinking whiskey all night
Flipping off the police when them tricks pass by
I'm that fool next door, always late with his rent
I'm that loser on the couch, watching Springer and getting head
Dreaming about a better time, better place, better life
Looking for that quick fix, and tweaking all night

Chorus:

Just killing time, just killing killing time, just killing time,
just killing time,
kiss that world good bye, it's all over now, that thing is over
now

God knows I tried
But no one understands me
The black sheep of the family
My enemies - they try to overtake me
Burning and looting 'till babylon break me
Look me in the eyes baby, ride with me
I can take it there, ride with me
I know what you want, where you live, what you need
I can make it real, hold it down, feel you bleed

Chorus

I keep my eyes on the stars
That's where I come from
Belt of Orion
Son of a sun God
You know my name, I'm the conqueror
The lion King, kamehameha
Come 20-12, come 12 tribes, come 12 strands, come 12 lives
12 steps, 12 months, 12 muthafuckas
All makin' bail, kicked 'cause of the crowded jails
Sex and violence sells
12 serial killers, 12 dead without a trail or a trace
It's prime time, the fight night, pay-per-
view, suicide, the bee sting
Butterfly

Kiss, kiss, kiss that world goodbye, it's all over now, that th
ing is over now.
