

Pac Bell

(həd) p.e.

We used to drive all night
We'd get high all the time
She used to call me all the time
Now she don't
She used to call me all the time
We'd go out all the time
You little angel, you look so fine

Why the fuck you fucking with me?
Why the fuck you playing with me?
Why the fuck you wasting my time?
Why the fuck you hiding my sunshine?

With friends like you who really needs it?
Your smiling face is misplaced, you're so deceiving
I can feel my spirit leaving
I cut my wrists you see them bleeding
Just like a parasite you creeping
See me psychotic
See me jumping of the deep end

We used to drive all night
We'd get high all the time
She used to call me all the time
Now she don't
She used to call me all the time
We'd go out all the time
But that's over and it's done
And it's all right, oh yeah

Why won't you just leave me alone?
Why won't you take your funky ass on home?
You got nothing to say that I want to hear
I see through you baby, you perfectly clear what

What happened? no, no, no
No baby, no baby I ain't mad. But whats up?
There was a time we was tight
There was a time we'd make love
And you'd suck my dick like every night
There was a time when I would treat you like you was my queen
But now your pussy dirty
Like you need Mr. Clean, Damn!

With friends like you who really needs it?
Your smiling face is misplaced, you're so deceiving
I can feel my spirit leaving
I cut my wrists you feel them bleeding
Just like a parasite you creeping
Suffer like the fucking crucifixion
Cover me with dirt, there won't be no resurrection
See me psychotic, see me jumping off the deep end

We used to drive all night
We'd get high all the time
She used to call me all the time
Now she don't

She used to call me all the time
We'd go out all the time
You little angel, you look so fine

If I told you how I felt, you would throw it back at me
Your wicked mouth would laugh at me
I hear you laughing at me
Your eyes could never lie to me
Words are all lies to me, it's all lies to me

With friends like you who really needs it
Your smiling face is misplaced, you're so deceiving
I can feel my spirit leaving
You cut my wrists, you feel them bleeding
Just like a parasite you creeping
Baby, got me psychotic
Got me jumping of the deep end
