

## Pac Bell

(həd) p.e.

We used to drive all night  
We'd get high all the time  
She used to call me all the time  
Now she don't  
She used to call me all the time  
We'd go out all the time  
You little angel, you look so fine

Why the fuck you fucking with me?  
Why the fuck you playing with me?  
Why the fuck you wasting my time?  
Why the fuck you hiding my sunshine?

With friends like you who really needs it?  
Your smiling face is misplaced, you're so deceiving  
I can feel my spirit leaving  
I cut my wrists you see them bleeding  
Just like a parasite you creeping  
See me psychotic  
See me jumping of the deep end

We used to drive all night  
We'd get high all the time  
She used to call me all the time  
Now she don't  
She used to call me all the time  
We'd go out all the time  
But that's over and it's done  
And it's all right, oh yeah

Why won't you just leave me alone?  
Why won't you take your funky ass on home?  
You got nothing to say that I want to hear  
I see through you baby, you perfectly clear what

What happened? no, no, no  
No baby, no baby I ain't mad. But whats up?  
There was a time we was tight  
There was a time we'd make love  
And you'd suck my dick like every night  
There was a time when I would treat you like you was my queen  
But now your pussy dirty  
Like you need Mr. Clean, Damn!

With friends like you who really needs it?  
Your smiling face is misplaced, you're so deceiving  
I can feel my spirit leaving  
I cut my wrists you feel them bleeding  
Just like a parasite you creeping  
Suffer like the fucking crucifixion  
Cover me with dirt, there won't be no resurrection  
See me psychotic, see me jumping off the deep end

We used to drive all night  
We'd get high all the time  
She used to call me all the time  
Now she don't

She used to call me all the time  
We'd go out all the time  
You little angel, you look so fine

If I told you how I felt, you would throw it back at me  
Your wicked mouth would laugh at me  
I hear you laughing at me  
Your eyes could never lie to me  
Words are all lies to me, it's all lies to me

With friends like you who really needs it  
Your smiling face is misplaced, you're so deceiving  
I can feel my spirit leaving  
You cut my wrists, you feel them bleeding  
Just like a parasite you creeping  
Baby, got me psychotic  
Got me jumping of the deep end
