Pac Bell

We used to drive all night We'd get high all the time She used to call me all the time Now she don't She used to call me all the time We'd go out all the time You little angel, you look so fine

Why the fuck you fucking with me? Why the fuck you playing with me? Why the fuck you wasting my time? Why the fuck you hiding my sunshine?

With friends like you who really needs it? Your smiling face is misplaced, you're so deceiving I can feel my spirit leaving I cut my wrists you see them bleeding Just like a parasite you creeping See me psychotic See me jumping of the deep end

We used to drive all night W'e'd get high all the time She used to call me all the time Now she don't She used to call me all the time We'd go out all the time But that's over and it's done And it's all right, oh yeah

Why won't you just leave me alone? Why won't you take your funky ass on home? You got nothing to say that I want to hear I see through you baby, you perfectly clear what

What happened? no, no, no No baby, no baby I ain't mad. But whats up? There was a time we was tight There was a time we'd make love And you'd suck my dick like every night There was a time when I would treat you like you was my queen But now your pussy dirty Like you need Mr. Clean, Damn!

With friends like you who really needs it? Your smiling face is misplaced, you're so deceiving I can feel my spirit leaving I cut my wrists you feel them bleeding Just like a parasite you creeping Suffer like the fucking crucifixion Cover me with dirt, there won't be no resurrection See me psychotic, see me jumping off the deep end

We used to drive all night We'd get high all the time She used to call me all the time Now she don't She used to call me all the time We'd go out all the time You little angel, you look so fine

If I told you how I felt, you would throw it back at me Your wicked mouth would laugh at me I hear you laughing at me Your eyes could never lie to me Words are all lies to me, it's all lies to me

With friends like you who really needs it Your smiling face is misplaced, you're so deceiving I can feel my spirit leaving You cut my wrists, you feel them bleeding Just like a parasite you creeping Baby, got me psychotic Got me jumping of the deep end
