## Whitehouse

My niggaz in the whitehouse We got the Fascists on the run My niggaz in the whitehouse Rednecks hide your guns My niggaz in the whitehouse The revolution has begun My niggaz in the whitehouse Welcome to the future Don't be such a sore loser

Black in the whitehouse See the color of change Things will never be the same Let the middle class reign

Now anything can happen When a slave becomes the master Your hierarchy is shattered forever No turning back now

Welcome to you future Say goodbye to the past

Black in the whitehouse We the people have spoken The system is badly broken We will never give up

The corporate control is dyin The cointelpro is lyin What you're sellin - We're not buyin The truth is rising!

Welcome to the future don't be such a sore loser!
