

Emergency

H.E.A.T

I think I'll have myself a heart attack
If that's the only way to bring you back
I've had a little blood, I need some more
I feel the hunger burning so damn cold

Cause one touch is all I need to keep these arms from bleeding
One touch is all I need, it's an emergency

I need to medicate, I'm screaming out
No treatment left, just give me mouth to mouth
I had a little, but I need some more
No way I'm leaving what I came here for

Cause one touch is all I need to keep these arms from bleeding
One touch is all I need, it's an emergency
Cause one touch is all I need to keep these arms from bleeding
One touch is all I need, it's an emergency
