

Eye For An Eye

H.E.A.T

Talk to me, tell me the news
The word is out that you're heading out
Rock with me, the denim shoes
I got the feelin' you got nothin' to loose

Don't go there, don't pull the trigger
It's not too late to turn around now

Doesn't matter who you are
It's the taking back for an eye ya ya ya
You make the world go by
Can we take away your scars?
Can take away for a lie ya ya ya
We'll make it worth, all
All, we'll make the world go blind

Honestly, it's hard to let go
From the stone you're about to go
Teasing me, erasing me (???)
It all will pass if you give it some time

Don't go there, don't pull the trigger
It's not too late to turn around now

Doesn't matter who you are
It's the taking back for an eye ya ya ya
You make the world go by
Can we take away your scars?
Can take away for a lie ya ya ya
We'll make it worth, all
All, we'll make the world go blind

Don't go there, don't pull the trigger
It's not too late to turn around now

Doesn't matter who you are
It's the taking back for an eye ya ya ya
You make the world go by
Can we take away your scars?
Can take away for a lie ya ya ya
We'll make it worth, all
All, we'll make the world go blind
