

# Follow Me

H.E.A.T

Follow me into my dreams  
Where our love will survive

Come rejoin me in the writing  
About the story of our faith  
Do we still live on the pages  
That I know that we tore out

From the silence through the darkness  
Every step I take  
I lead you on and straight into my heart  
I'm brave now  
Let's leave this place

Follow me into my dreams  
Where our love will survive  
Through time and space  
We'll leave this place  
To another world tonight

With a whisper I will call you  
I will ask you  
To leave this place with me  
And all of this misery

From this moment on  
I'll lead you on and straight into my heart  
I'm brave now  
Let's leave this place

Follow me into my dreams  
Where our love will survive  
Through time and space  
We'll leave this place  
To another world tonight

I will always remember  
How you came and took my life

(Keep on dreaming, oh)  
(Keep on dreaming, oh)  
(Keep on dreaming, oh)

I came and took life  
(Keep on dreaming, oh)  
For keep on dream  
(Keep on dreaming, oh)  
(I will keep on dreaming, oh)

Follow me into my dreams  
Where our love will survive

(Follow me into my dreams  
Where our love will survive)  
(Follow me into my dreams  
To another world tonight)

(Follow me into my dreams  
Where our love will survive)  
(Follow me into my dreams  
To another world tonight)

(Follow me into my dreams  
Where our love will survive)  
(Follow me into my dreams  
To another world tonight)
