Wrong

H2O

Go on, I can not blame you
No one to teach you that
The truth is hard to find
You have to seek it
You have to meet it
Reset your mind to stay in time

No one's gonna hear you talking now
No one's gonna care what it is all about
Cause when your mind is shut so tight
And you think you're always right
You never listen, and keep on missing

What you think is wrong
You're standing still
While the world keeps moving on
What they say is wrong
I've known you for a while, but
You're just catching on

And it doesn't phase you
You're always saying that
You've seen it all, but
You've got to find it
Can't hide behind it
Slip on excuses 'til you fall

No one's gonna hear you talking now
No one's gonna care what it is all about
Cause when your mind is shut so tight
And you think you're always right
You never listen, and keep on missing

What you think is wrong
You're standing still
While the world keeps moving on
What they say is wrong
I've known you for a while, but
You're just catching on, and on
Catching on

No one's gonna hear you talking now
No one's gonna care what it is all about
I don't want to hear you talking now
I don't really care what it's about

No one's gonna hear you talking now
When your mind is shut so tight
And you think you're always right
You never listen, and keep on missing

What you think is wrong
You're standing still
While the world keeps moving on
What they say is wrong
I've known you for a while, but
You're just catching

Known you for a while, but
You're just catching
Known you for a while, but
You're just catching on
