

# Bring Back My Memories

Haddaway

It took a long time for us to meet again  
I was scared to wait all those years in vain  
You had to grow up, went out to see the world  
Left me here alone inside myself for far too long, girl.

Heaven sent you back  
Here and now we're back together  
You took my heart forever  
Bring back what we had

Heaven sent you back  
There's a flame that burns forever  
It's you and me whatever  
Take the good from bad

Bring back my memories  
Of sunshine and laughter  
Bring back my memories  
Of joy and this feeling inside  
You're too hot for the rain  
Let the sun shine again  
You gotta bring back my memories of love  
Don't you worry, my love is here to stay  
I wanna lay down close to you night and day  
I touch your body and give my heart away  
Mugthy glad to know that heaven sent your lovin' my way
