

Let's Do It Now

Haddaway

Baby, if you'd understand,
I would like to be your man
In change of your love, of your love, of your love,
And, baby, when we find the time and place,
I just hope it's not too late,
Really, baby, must we wait, must we wait, must we wait?

Let's do it now, I'm coming, I'm coming, let's do it now
Let's do it now, I'm coming, I'm coming, let's do it now

I've pictured, pictured some nights with you
Once a week will never do.
Give me love, give me love, give me love
I'm waiting, waiting for your touch
A simple kiss is not enough
Give me love, give me love, give me love

Let's do it now, I'm coming, I'm coming, let's do it now
Let's do it now, I'm coming, I'm coming, let's do it now

Testing testing call me number three,
What I want is just for you to be with me,
One time, two times, even in the night,
Baby, baby, gonna pack your bags,
You wanna walk out the door and leave me all alone.
I got to get my love.
I got to keep my home,
Sitting in the corner,
Waiting all alone,
Baby, you got to come home.

Let's do it now, I'm coming, I'm coming, let's do it now
Let's do it now, I'm coming, I'm coming, let's do it now
