

Love Makes

Haddaway

Why can't we be one?
Can't we live in peace?
Peace is our need

Why can't we be free?
Have the blood see
See what we see

We all breath the same air
Crowd when we scared
Skid of our fizz
Let me tell you now

Love makes the world see
Love sets your mind free
Love takes time you see
And love keeps our children free

Love makes the World see
Love sets your mind free
Love takes time you see
And love keeps our children free
(Yeah)

Why try to understand?
Time is in our hands
Do what we can

Why respect our rides?
How can we live
Live just to fight?

We all breath the same air
Crowd when we scared
Skid of our fizz
Let me tell you now

Love makes the world see
Love sets your mind free
Love takes time you see
And love keeps our children free

Love makes the World see
Love sets your mind free
Love takes time you see
And love keeps our children free
(Yeah)

Love makes the world see
Love sets your mind free
Love takes time you see
And love keeps our children free

Love makes the World see
Love sets your mind free
Love takes time you see
And love keeps our children free

(Yeah)
