

# Waiting For A Better World

Haddaway

What ya gonna believe in  
If you can't tell right from wrong?  
Some TV show is all you know  
Don't ya care what's going on?

You're in touch with disaster  
But you look the other way  
Paralyzed by the nature  
How you live every day

So you're waiting - You're waiting for a better world  
You're just waiting - You're waiting for a better world  
If you leave it how you found it  
It will always be the same:  
The sinners take the prizes  
And the righteous take the blame

Better wake up your senses  
Get your body on the road  
There ain't no time for peace of mind  
When the future might explode

But you're waiting - You're waiting for a  
better world  
You're just waiting - You're waiting for a  
Better world  
If you leave it how you found it  
It will always be the same:  
The sinners take the prizes  
And the righteous take the blame

While you're waiting
