

When the Feeling's Gone

Haddaway

I know you're all alone
And you're feeling strange
That you're standing there
Our best friend
And even when you think
That he's coming back
You hold onto your ring like a last wish

When the feeling's gone
You'll be feeling strange
When the feeling's gone
You know you're captivated

When the feeling's gone
When the feeling's gone
Baby, you know (Baby, you know)
(2x)

Now that's really cold
You got a broken heart
But you're changing fast like a fast train
Winter's coming soon
Should not go outside
A boy is passing by
With a bright smile

When the feeling's gone
Someone stops to shine
When the feeling's gone
You walk with an open side

When the feeling's gone
When the feeling's gone
Baby, you know (Baby, you know)
(2x)

(When the feeling's gone) (6x)
(Baby, you know, baby you know)

When the feeling's gone
Someone stops to shine
When the feeling's gone
You walk with an open side

When the feeling's gone
When the feeling's gone
Baby, you know (Baby, you know)
(2x)

When the feeling's gone
When the feeling's gone
