

## Exist To Resist

Hades

So one-dimensional  
The people that pulled the strings and turned your life around  
It is intentional, believe me  
The way they keep you in the dark, it's how they keep you down

I exist, exist to resist

The motivation to persist  
A strange intangible existence fueled everything  
Accomplished up to now that time has changed perceptions viewed  
to  
To something slightly gone askew

I exist, exist to resist

But existing to resist was lost somehow
