

## Fail

Hades

Grab the good times while and when you can  
They are few and far between  
Simply glitches, lapses in the gloom  
This I know, this I've seen

The Darkess Prevails  
It wins without fail  
Can't care anymore but when I am  
With you it all seems fine

Grab the money, run off far away  
Your problems; you'll escape  
What does success mean to enslaved clones?  
The world is all their's to rape  
In darkness

Take these words I spill onto this page  
All ideas are now on sale  
You can't enjoy wealth  
All alone in a cag
