I've been around forever, watching, waiting She was the one Took what I wanted, what I longed for With no remorse

Rape, in the night
To defile the pure, it takes a soul that's dark and sure
Power mad, sick, disease, no cure
Screaming murder, try to fight him away
Colors run, flag of white displayed

Rape, in the night
Never be the same, life is not a stupid, useless game
Somebody has to take the blame
Screaming murder, try to fight him away
Colors run, flag of white soiled gray

Where do you think you're going I'll tell you where you've been Through the glass so darkly An angel has afllen

Rape, in the night
To defile the pure, it takes a soul that's dark and sure
Power mad, sick, disease, no cure
Screaming murder, try to fight him away
Colors run, flag of white lays frayed
Every time
