

A good kiss

Hadise

I can see you wanna get a taste
And I know that you just don't wanna wait
But baby you gotta understand
All the things that I want from my man
Cause you know what they say about the kiss and my baby
You just show me what I want
Or you'll be missing us baby
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
You gotta know how to kiss me baby
Don't hesitate cause I'm still waiting
Every woman needs a damn good kiss
If you really wanna be with me then do it like this
If you just wanna be with me then try to listen baby
You show me just what I want
Or I might be dissing you baby
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
Why hurry, why hurry
Don't you wanna get down to the good stuff
Do it slowly, do it only
If you wanna kiss me with passion baby
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
And if you want me baby
If you can't kiss baby
It doesn't matter what you do
No no no no noo
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
Only with a good kiss
Can you give me like this
Only through these lips
Can I move my hips
Only with a good kiss
Can you give me like this
Only through these lips

Can I move my hips
Only with a good kiss
Can you give me like this
Only through these lips
(Can I move my hips)
Oooh kiss me baby
Oooh
