

## Bad Signal

Hadouken!

You don't even love me  
You just keep me hanging on  
(Cause you give me a bad signal)  
You don't even love me  
You just keep me hanging on  
(Cause you give me a bad signal)  
Keep me hanging on  
Keep me hanging on  
Keep me hanging on  
(Cause you give me a bad signal)  
Where did we go wrong?

It's been nearly a week  
So I am thinking it's ever too late?  
I didn't realize my heart can break  
So easy from another status update  
More days pass and then great  
On my timeline up pops your face  
No notifications babe  
But I noticed all the tags you erased

Coz in my mind you are trending  
And I wait and my heart's still pending  
I see you there on my newsfeed  
Don't leave me my voice mail, please!  
All the boys that you've been friended  
Seems like this contract's suspended  
From the signal you are sending  
Got a feeling this is ending!

You don't even love me  
You just keep me hanging on  
(Cause you give me a bad signal)  
You don't even love me  
You just keep me hanging on  
(Cause you give me a bad signal)  
Where did we go wrong?

3 a.m, drunk I'm a mess  
Sitting on the pavement alone  
Should i send? Yes  
Vomiting thought on my keypad  
Send another drunken SMS  
I'm foolish when I get pissed  
Wake up, read your inbox you'll see the gist  
I wore my heart on my wrist  
To the girl I love in my contact list

Coz in my mind you are trending  
And I wait and my heart's still pending  
I see you there on my newsfeed  
Don't leave me my voice mail, please!  
All the boys that you've been friended  
Seems like this contract's suspended  
From the signal you are sending  
Got a feeling this is ending!

You don't even love me  
You just keep me hanging on  
(Cause you give me a bad signal)  
You don't even love me  
You just keep me hanging on  
(Cause you give me a bad signal)  
You keep me hanging on  
(Cause you give me a bad signal)  
You keep me hanging on  
Where did we go wrong?

You don't even love me
