

## Game Over

Hadouken!

Where's your head?  
Where's your head?  
Where's your head?  
Where's your head?  
Is it off?  
Is it on have you lost it?

Where's your head?  
Where's your head?  
Where's your head?  
Where's your head?  
Is it buried in the sand?  
Up your arse?  
Are you brain dead?

Uh oh it's us again  
Yo the same five kids from the HDKN,  
And we're on this game like a kid with a brand new Playstation,  
Get to know that we're coming for you  
Because I've got more bars than JD Weatherspoons,  
More lines than Camden could do,  
More word that Google could search through.

Stop,  
Stop right now,  
No you don't.

And I thought I told you,  
The game is over,  
Game is over,  
Showed you,  
Showed you,  
The game is over.

Where's your head?  
Where's your head?  
Where's your head?  
Where's your head?  
Is it off?  
Is it on have you lost it?

Where's your head?  
Where's your head?  
Where's your head?  
Where's your head?  
Is it buried in the sand?  
Up your arse?  
Are you brain dead?

You can say what you like,  
We don't care now,  
You can type what you type,  
We don't care at all,  
Still in your fucking eyeballs,  
So where's your head at,  
Still in your fucking eardrums,  
So where's your head at.

Stop,  
Stop right now,  
No you don't.

And I thought I told you,  
The game is over,  
Game is over,  
Showed you,  
Showed you,  
The game is over.

So where you at,  
And where's your head,  
Your precious indie rock's dead  
And I'll fuck up your life like crystal meth,  
So now it's on and I'm in the zone,  
You fuck up my ears like a shit ringtone.

Stop,  
Stop right now,  
No you don't,  
No you don't.

Uh oh it's us again yo,  
Uh oh it's us again yo,  
Uh oh it's us again yo,  
Same five kids but a brand new show.

Uh oh it's us again yo,  
Uh oh it's us again yo,  
Uh oh it's us again yo,  
Same five kids but a brand new show.

It's us again yo,  
Uh oh it's us again yo,  
Uh oh it's us again yo,  
Same five kids but a brand new show.

It's us again yo,  
Uh oh it's us again yo,  
Uh oh it's us again yo,  
Same five kids but a brand new show.

Your time is up friend all bad things must come to an end.

Your time has been so fuck you and your precious scene.
